

## Best Fashion Academy

Bloemfontein Fashion Academy is a private institute that started in 1994 with a minimum number of students. Since then, the Academy has grown fast to a total of 50 students per year from which some has reached great heights. Former students from this Academy have already achieved a lot of success such as starting their own designing studios, training centres, designing for well-known brand names, working overseas and have also done well in design competitions.

Students must have Matric and write an aptitude test before they are accepted at the academy. BFA has a very high standard and an intensive course and therefore dedicated people from all over have joined this academy.

## Practical and profession

### **Orientated**

The course consists of a combination of subjects that is woven into one another. **Pattern Designing** is the major that forms about 70% of the whole course. Students learn how to design any type of pattern

for any type of figure. They use a Pattern Drafting instrument that is exclusively designed for the academy. Therefore, clothing fit perfectly every time - it does not matter if it is for the smallest baby or the most gorgeous wedding dress.

In **Garment Construction** students learn to cut and sew the patterns that they have designed. The course starts with tops and skirts and ends of with proper tailored men's jackets. The subject **Fashion Illustration** enables you to sketch a proposal to be presented to a client. **Creative art** is there to improve the creativity of the students and here they learn to make a lot of interesting things like hats, material painting, shoe covering, etc. To complete the course there is also modules in **Textiles, Marketing and History of fashion**.

## *What to expect?*

### Fashion Shows and Competitions

A gala fashion show is held annually in which the best student designer is chosen. This opportunity opens doors for the students and ensures their position in the world of fashion as well as introducing them to the public.

Competitions outside the academy is also strongly encouraged as this establishes your name as designer.

***Design  
your  
own  
future!***

**Fabric Shop!!!**

One of our key features at our Academy is that we have a fabric shop on campus to facilitate our students for projects. All our students receive 10% discount on purchases for school and home projects. As the academy fees include materials needed, the students receive a voucher to use in the shop for each project.

\*The shop is open to the public.
